Global and regional presence

Forvis Mazars opened its Hungarian office in August 1991, and this has grown into one of the leading audit, accountancy, and consultancy firms on the Hungarian market. Our clients include the local subsidiaries of international corporations, major companies from the Central and Eastern European region, and Hungarian businesses.

Our extensive international and regional presence helps our offices pool their knowledge and expertise in order to meet the growing demands of our clients and the continuously changing market expectations.

Relying on our regional network covering Central and Eastern European countries, all of our services are available at the same time in multiple countries. Thanks to our harmonized processes and standardized procedures, we always guarantee top quality, with professional local service and central coordination if needed.

Extensive expertise

Our expertise extends to all industries, ranging from the banking, financial and insurance sectors through the manufacturing and processing industries, to commerce, logistics and services. We are actively involved and participate in the work of Hungarian professional associations and chambers.

A wide range of services

Our Audit Services

Forvis Mazars has the statutory licences, highly qualified professionals and extensive practical experience required to deliver complex audit engagements for both domestic entities and international corporate groups.

Depending on the specific nature of the engagement, our audit teams are supported by IT audit, IFRS advisory, tax, legal, actuarial and valuation specialists, enabling a comprehensive and integrated assessment of complex business transactions and risks. Our professionals have significant experience across a wide range of industries and place strong emphasis on regulatory compliance, transparency and operational efficiency in the performance of their work

Our audit services include in particular:

- Statutory audits of annual and interim financial statements prepared in accordance with Hungarian accounting legislation and other applicable regulatory requirements
- Audit of consolidation and reporting packages of international, regional and domestic corporate groups, including group audit support
- Audit of financial statements prepared in accordance with IFRS
- Audit of public interest entities (PIEs), as well as listed companies, insurance undertakings, banks and other financial institutions
- Limited assurance engagements on sustainability and ESG reports
- Independent audit services related to corporate transformations and reorganisations
- Audit of grants, subsidies and project based funding
- Agreed Upon Procedures engagements

Tax and Legal Services

Forvis Mazars' tax and legal advisors offer high added value, client-centered services. Our aim is not to focus only on taxation-related aspects in our work, but also to take into account the specific business considerations of our clients, as well as their industrial and regulatory characteristics. We are convinced that this is the way to find the best possible solution. Forvis Mazars' tax advisors are ready to provide comprehensive advice on all types of taxes for our current and prospective clients.

Accounting and IFRS advisory

Forvis Mazars provides a wide range of business and accounting advisory services to help clients in areas where, in day-to-day operations, the right resources, experience or expertise may not be available within an organisation. We provide business and accountancy advisory services to a wide range of businesses to help them achieve their ambitions, to ease their burdens and enable them to get the best out of their day-to-day business activities.

Our services:

- IFRS and Hungarian accounting advisory and trainings
- Assurance engagements and other independent reviews
- Corporate transformation services
- Internal control and process optimisation
- Forensic and fraud analysis

Accounting and Payroll Services

The outsourcing of accounting, taxation and payroll processes is an important business strategy today. Putting an external service provider in charge of the accounting and payroll services, which are not part of the core business, also provides significant cost savings and risk reduction for a wellfunctioning company.

Our financial outsourcing department has specialists with extensive experience in both Hungarian and international standards (IFRS).

- Payroll accounting and payroll administration services
- Accounting and bookkeeping services
- The performance of taxation-related tasks according to statutory requirements
- The preparation of financial reports and statements
- Temporary placement of financial and accounting professionals
- HR and payroll process review and practical training
- Support of the purchasing process

Innovation and IT audit

Our innovation capability is built on a dedicated, multidisciplinary development and project management team that supports transformation in a structured manner – driving more efficient internal operations while modernising our clients' business processes. Our project portfolio spans both internal and client-facing initiatives, ranging from digitalisation and automation solutions through custom-built applications and web-based platforms to Power BI-driven data visualisation. We deliberately leverage existing IT tools while continuously integrating new technologies, with a particular focus on AI-based solutions. Following digital advisory engagements, we design and implement automated, AI-supported workflows that replace manual processes, increase efficiency, reduce the risk of errors, and ensure regulatory compliance. Our goal is digital transformation: creating a new, innovative way of working – better, faster, with fewer errors and measurable impact.

Sustainability and ESG

Sustainability has become increasingly important in recent years. Environmentally conscious and sustainable operations and corporate governance, as well as social responsibility, are no longer just an ethical issue but are also relevant to business performance. Forvis Mazars helps companies develop their sustainability strategies, from planning through implementation to reporting.

- Sustainability reporting in accordance with EU reporting standards (CSRD/ESRS, VSME)
- Compliance with the Hungarian ESG Act
- Carbon footprint calculation, compliance with the EU taxonomy
- Sustainability strategy and climate adaptation.
