As Forvis Mazars Türkiye;

- To meet our clients' expectations with timely, complete and reliable services through the informed participation of all our employees and the competencies acquired through continuous training and development,
- To continuously review the effectiveness of the Quality Management System with a risk- and opportunity-based approach and to improve our processes and efficiency,
- To adopt efficiency, continuous improvement and innovation as fundamental principles,
- To make decisions within the framework of our ethical values, transparency, integrity and compliance with our rules of conduct, and to embed these values in every area of our business processes,
- To provide our service quality in alignment with the principles of sustainability and environmental responsibility, taking into account the relevant legal regulations, professional and sectoral standards, and the needs of our clients,
- To safeguard information security, data protection and the management of digital assets through a risk-based approach,
- To monitor and measure the achievement of our quality objectives through performance indicators and to share the results transparently,
- To develop solutions appropriate to the evolving requirements of the sector through close communication and cooperation with our stakeholders,

and to carry out all these activities **to add value to the world we live in through our sustainability efforts**, constitute our Quality Policy.

Our Policy is reviewed and updated once a year or when necessary.

DR. İZEL LEVİ COŞKUN
